EDUCATION

University of California, Berkeley, Haas School of Business
Master of Business Administration

May 2027

New York University, Stern School of Business

Dec 2020

Bachelor of Science in Business; Concentrations in Finance & Management; Minor in Psychology

EXPERIENCE

Google LLC, San Francisco, CA

Summer 2026

Sales Strategy & Operations MBA Intern

- Analyzed the impact of combining YouTube advertiser incentives on GCS revenue growth using SQL and identified high-value customer segments by region, account size, and target spend attainment
- Synthesized data insights and validated findings through structured interviews with 20+ sales team members; socialized recommendations with 10+ stakeholders to inform future media incentive strategies
- Designed a \$1M global A/B pilot to test targeted incentive offers for high-potential advertisers, defining experimental methodology, success metrics, enablement collateral, and execution tracking for regional teams

Apple Inc, Cupertino, CA

2020 - 2025

Strategic Finance - Retail Real Estate (2024-2025)

- Recommended a retail investment strategy that led to \$1B in funding from the CEO and CFO for global store expansion and upgrades by modeling capital allocation scenarios across 500+ locations
- Created a standardized decision-making framework used to evaluate ~100 retail investment proposals based on profitability, brand impact, and geographic strategy criteria
- Determined key drivers of underperforming stores, preserving 93% of locations at risk of closure by identifying initiatives to improve financial performance, customer experience, and brand alignment KPIs
- Shaped customer experience strategy and store design through analyzing how modifying in-store offerings such as Apple Pick-Up, Genius Bar, and Today at Apple impacts P&L metrics including rent, revenue, and payroll
- Projected sales for 16 new store openings and delivered weekly performance insights to the SVP of Apple Retail, supporting post-opening staffing and supply decisions

iPhone Sales Strategy & Planning (2022-2024)

- Led demand forecasting for iPhone releases across global Apple retail channels with 90%+ accuracy; collaborated cross-functionally with product marketing, supply management, and operations teams on launch planning
- Crafted weekly executive briefs on iPhone sales trends for the CEO and built a Tableau dashboard tracking actual vs. projected new product launch performance, enabling daily insights for the SVP of Apple Retail
- Spearheaded a cross-functional monthly forum with 40+ stakeholders to discuss impacts of currency fluctuations on iPhone export trends, guiding supply allocation and strategies to mitigate grey market resale activity
- Drove a 40% improvement in the efficiency of weekly processes for forecasting and reporting iPhone export sales by developing a new model and automating data retrieval using SQL

Corporate Finance (2020-2022)

- **C-Suite Reporting:** Analyzed internal financial performance against Wall Street analyst estimates to brief the CEO and CFO ahead of quarterly earnings calls; validated earnings call script to ensure accuracy and alignment
- **Refurbished Sales:** Optimized distributor strategy for refurbished devices by partnering with supply planning and sales teams to determine inventory, analyze bids, and negotiate with third-party vendors
- **Apple Music:** Evaluated ROI of the lyrics feature by analyzing user engagement data; built a Tableau dashboard to track actual vs. forecasted spend on Apple Music initiatives such as marketing campaigns and original podcasts
- **Procurement:** Managed headcount planning for iPad and Apple Watch production during COVID-19 factory shutdowns; identified \$200M in unpaid supplier rebates and interfaced with vendors to recover funds

ADDITIONAL

- **Volunteering:** National Alliance on Mental Illness (Support Group Facilitator), Home of Hope (Board Member)
- **Interests:** Trader Joe's Recipes, Shark Tank, Piano, Billie Eilish, Musical Films, Dim Sum
